Alison Kilian is among the most professional, responsive, and talented ghostwriters I've ever worked with. Her writing skills are superb, capturing complex ideas with eloquence and clarity. She cares deeply about her clients and always delivers exceptional work on time. Alison has roped in unusually expansive projects for me while maintaining each client's unique voice and keeping them focused, and they have been universally delighted with her process and profoundly impressed with her writing. Alison is the consummate professional, and I cannot recommend her more highly.
